

Hanger Nuts

Product code: MH79

Category: Hanger and Brackets

Introduction

The mine hanger nut is threaded onto the tail of Rock bolts and used for hanging of light services.

Key features

- The hanger nut is available for all bolt thread types.
- The closed loop is made from 12mm round bar welded to the nut both sides to AS1554.1.
- Valid for static loads with no allowance being made for shock or vibration.
- Avoid side loading of the closed loop.
- Corrosion protection may be provided by hot dip galvanizing or zinc plated to AS 1789
- Refer to your local Sandvik Ground Support Technical Service Engineer for advice and assistance.
