

Meshxpress Plate

Product code: D200MESH
Product specification:
Category: Surface Support - Plates

Introduction

The MeshXpress plate is designed to secure steel mesh to preinstalled bolts

Key features

- The plate can be installed with jumbo rigs due to its self-centering feature, reducing the need for a perfect alignment of the bolt.
- Compatible bolt thread types include T20, T24, M24 and 1"UNC.
- Its soft edges prevents breaking mesh.
- Eliminates the need to use extra bolts to pin mesh.
- Installs mesh hard against the rock face.
- Corrosion protection may be provided by hot dip galvanising or zinc coating.
